**Renewal Application Amendment**

**Purpose of Amendment**

The purpose of this amendment is to advise that, after discussion with the FCC staff, it was discovered that certain typographical errors were discovered in the Children's Television Reports for programming airing on Monday, Tuesday and Wednesday in various quarters. The reports inadvertently listed an incorrect total number of times the programming aired. Licensee certifies that the error was clerical and non-substantive and the station complied with the Core Programming obligations set forth in the FCC's rules.
