

Online Public Inspection File

To the licensee's knowledge, WHNS placed in its public inspection file all documents required to be placed in the file by 47 C.F.R. 73.3526. Due to an administrative oversight, licensee failed to timely upload all required information to the station's online political file. Specifically, some required information in the political file was corrected after it was uploaded. Immediately upon discovering the oversight, the licensee uploaded the missing information to the station's online political file. While the licensee cannot be certain in all instances when the documents may have first been placed in the file, it believes that it otherwise has complied with Commission requirements as to timing in all material respects, and it is not aware of any other untimely submissions.

In making this certification, the licensee has reviewed its public inspection file and has inquired of current employees who are knowledgeable of the contents and maintenance of the public inspection file. As used in this certification, the phrase "to licensee's knowledge" means licensee's actual knowledge, during the period that the licensee has owned the station, without further investigation other than as described in this exhibit.
