

**PURPOSE OF APPLICATION;
EXPEDITED ACTION REQUESTED**

The purpose of this application is to request a construction permit for KHFR-LP to relocate its authorized transmitter site to a tower in Fairfield, Iowa formerly used as the licensed transmitter site of the now-deleted KRUU-LP, Fairfield, Iowa (FIN 133984).

The distance from the currently authorized KHFR-LP transmitter site to the site proposed in this application is 6.833 kilometers (4.246 miles), which is within the new minor change limit of 11.2 kilometers specified in Section 73.870(a) of the Commission's Rules.

Based on the channel study obtained from the FCC's on-line FM Query utility (see page 3), the new KHFR-LP site complies with the distance separation requirements of Section 73.807 of the Commission's Rules (there are no 53rd or 54th adjacent channel stations within 50 kilometers of the proposed transmitter site).

KHFR-LP has been silent since March 19, 2020, when the support structure for its transmitting antenna was demolished. Expedited consideration of this application is respectfully requested in order that KHFR-LP will be able to complete

construction of its new facility in time to return to the air by March 18, 2021. This would be in the public interest, convenience and necessity.

DISTANCE SEPARATION FOR STATIONS WITHIN 150 km ON CHANNELS 275-281 INCLUSIVE
