

**Core Programming Processing Guidelines**

The Licensee has certified in the affirmative to the question asking whether, for the period of time covered by this application, the station has complied with the Core Programming criteria and Core Programming Processing Guidelines, as required by the Commission's rules that were in effect at the time the Core Program was aired.

As explained in the Adherence to Minimum Operating Schedule exhibit submitted herewith, WAGV(TV) was silent from May 1, 2017, through February 2, 2018—most of Second Quarter 2017, all of Third Quarter and Fourth Quarter 2017, and part of First Quarter 2018. However, it should be noted that MVPD viewers in WAGV(TV)'s Knoxville DMA had continuous access to the station's programming because it was picked up through a non-broadcast feed. Accordingly, the Licensee continued to make Core Programming available to MVPD viewers while it was off the air. The Licensee met or exceeded the Core Programming Processing Guidelines throughout the license term, including the period during which it was silent.
