

## **Online Public File Exhibit**

In the course of preparing the instant license renewal application, licensee reviewed the station's online public file and noticed some discrepancies. One annual EEO report was uploaded late due to station staff being under a COVID-19 stay-at-home order and not having access to the necessary documentation at the station. Also, fewer than five political orders were uploaded late, some by only several days and before the schedule began. Licensee will work to ensure all documents are timely uploaded going forward.
