Applicant previously had a granted Construction Permit, File # BDISDTL-20110831ABK with the identical parameters to this application. Due to the July 13, 2021 Analog Cutoff, the Applicant filed for a license using the parameters from a granted STA Application File # 0000117389. This Application restores the 15kW ERP construction permit.

Employing the methods set forth in OET Bulletin No. 65, NIER is less than 5% of the Regulatory Limit for its service. The licensee shall also take precautions such as reducing power or shutting down temporarily, to ensure that workers operating in the vicinity of the antenna are not exposed.
