

**Radio Stations KJAS-FM & KFAH-FM
Online Public Inspection File Statement**

In preparing for each station's license renewal filing, counsel for James M. Lout reviewed the KJAS-FM and KFAH-FM Online Public Inspection Files, discussed his findings with Mr. Lout and advised that the quarterly issues-programs lists were not as complete as they should be. Throughout the years much of the issues-oriented programming broadcast on both radio stations was not specifically or completely documented on the quarterly lists. Upon the advice of counsel, Mr. Lout recently revised some quarterly lists to include additional information and he will continue to make improvements to more accurately reflect his efforts to comply with the FCC's issues-oriented programming obligations.
