

WTVQ-DT Online Public File

All required documents have been placed in the WTVQ-DT online public file, but a few of those documents were slightly late. Only three documents were more than a week late, and most were posted one to three days after the due date.

The delayed postings are as follows:

The issues/programs lists for both the third and fourth quarters of 2015 were posted in the public file on Tuesday, January 12, 2016, which was approximately three months late for the third quarter report but only one day late for the fourth quarter report. The issues/programs list for the fourth quarter of 2016 was posted on January 12, 2017, two days late. Additionally, the issues/programs list for the third quarter of 2017 was posted to the public file on October 25, 2017, 15 days late. Further, the report for the second quarter of 2018 was posted on Monday, July 16, 2018, six calendar days but only four business days after the due date.

Two certifications of compliance with the commercial limits in children's television programming were not posted by the due date: the certification for the fourth quarter of 2016 was posted on January 13, 2017 (three days late), and the certification for the third quarter of 2018 was posted on October 12, 2018 (two days late).

Finally, while all required notices to viewers of the station's broadcast channel change were aired in a timely manner, the posting of the after-the-fact certification of compliance with this requirement was overlooked until the online public file was reviewed prior to undertaking preparation of this renewal application.
