

FCC VIOLATIONS

On June 12, 2013, the Dallas office of the Enforcement Bureau issued a Notice of Violation regarding certain issues related to EAS logging and monitoring, tower painting, STL frequency usage, and lack of a contour map in two public inspection files. On June 28, 2013, the Licensee responded to the Notice and provided detailed information regarding actions taken to correct the issues and prevent their recurrence. To the Licensee's knowledge, no further action was taken by the Commission.
