

WMDF-LD
FI 130544

WMDF-LD has filed for a renewal of its License, File # 0000122382 on 9/24/2020.

There was a Silent STA Request LMS File # 0000041827, stating the station went off the air temporarily On February 9, 2018. The station was preparing to move to a new location in downtown Miami. Numerous regulatory obstacles related to the City of Miami prevented the change of location in 2018 and the station resumed operation at it's licensed facility on May 10, 2018.

There appear to be records lacking in the LMS filing system, noting the resumption of the station to on air operations. This was likely an oversight or mistake on the part of the previous consulting engineer handling FCC filings for the Station. This person had health issues during this time that may have contributed to an error in filing. I was also dealing with my own serious health issues and had relied upon the expertise of this consulting engineer to keep the stations filings current. Under no circumstance, was there any deliberate intent to be in any violation of FCC rules.

My name is Leonard Slazinski and I am the Member/Manager of Everclear Network, LLC. The above statement is true and correct to my knowledge, under penalty of perjury.
