

## WHAS 2021 License Renewal Application

### Public Inspection File

In late 2015 and early 2016 WHAS reorganized the documents in its Online Public Inspection File (OPIF). Consequently, the date stamp for some documents indicates that they were not timely filed. However, the OPIF history confirms the creation of many new folders in 2016.

To the best of our knowledge, documents required to be in the OPIF were timely uploaded, as stated in notes uploaded during the reorganization.

The 4<sup>th</sup> Quarter 2013 Issues/Programs List was timely uploaded on January 10, 2014, but it was deleted and re-uploaded on January 14, 2014:
