

**Certification Regarding Compliance with
Section 73.3526 of the FCC's Rules During the Preceding License Term**

Applicant has reviewed its Public Inspection File to determine whether documentation required by Section 73.3526 of the FCC's Rules has been uploaded to the Public Inspection File when required, and found that a network affiliation agreement was not added to the station's Section 73.3613 list within 30 days of execution. Additionally, the timely uploaded Commercial Limits Certifications for the First, Second, and Third Quarters of 2018 omitted a list of programs aired during that quarter designed for children 12 years of age and younger. The station subsequently uploaded corrected certifications. Finally, in reviewing the Political File, applicant determined that some political file materials were not uploaded within one business day. Applicant will provide additional training to station staff to ensure all required documents are timely uploaded to the Public Inspection File in the future.
