

Public File Compliance – Political File

Licensee is committed to uploading political file material as soon as possible consistent with Commission guidance. In reviewing the political file material uploaded over the past two years, Licensee determined that a limited number of items pertaining to political orders were not uploaded within one business day of their generation. Due to an administrative oversight, it appears that approximately 8 political advertising orders for presidential candidate Michael Bloomberg placed on KQQK on January 31, 2020 were not uploaded until the orders were invoiced in March of 2020.

Licensee continues to provide training for staff responsible for uploading political file material to the online file and to reinforce the importance of uploading all political material promptly. Licensee will continue to monitor public file compliance closely going forward.
