

REQUEST FOR SPECIAL TEMPORARY AUTHORITY

Nexstar Inc. ("Nexstar"), licensee of KARK-TV, Little Rock, Arkansas, FAC ID 33440 ("Station"), seeks special temporary authority to continue reduced power operations. As the Commission is aware, in December 2020 the Station was forced to reduce its authorized ERP to 70 kW due to a transmission line failure. The Station has been unable to consistently maintain full power operations in the interim. Additionally, Nexstar now anticipates replacing the antenna. Accordingly, Nexstar seeks special temporary authority to continue reduced power operations, at or below 70 kW, until the repairs are completed.
