

Translator W283CT
104.5 mHz – 180 Watts – 387 M AMSL
Douglasville, GA
April 2021

Special operating Condition #2

This Special Operating Condition requires the AM antenna impedance of WXJO, Douglasville, GA to be measured to determine if any change has occurred.

This installation only changed the FM translator antenna. The transmission line and isocoupler remained the same. There was no change of AM impedance and no need to file a 302-AM for WXJO.
