

Glen Iris Baptist School

W16DS-D, Birmingham, AL (Facility ID 24257)

Renewal Application Amendment

Children's Television Commercial Limits Certifications

Glen Iris Baptist School ("Glen Iris") is a non-commercial educational entity. While the FCC does not distinguish Class A stations as commercial or non-commercial, Glen Iris, as a non-commercial entity, *does not air ANY advertisements or underwriting announcements on W16DS-D.*

Glen Iris believed that, because it does not air *any* advertisements or underwriting on W16DS-D, it was not required to upload quarterly commercial limits certifications. Since it airs no advertising or underwriting announcements, it *could not* exceed the limitations on advertising in children's television programming.

Upon direction from the FCC staff, Glen Iris prepared and uploaded to the W16DS-D online public inspection file Children's Television Commercial Limit Certifications for each quarter of the current license term.

Non-Discriminatory Advertising Sales Agreements

Because Glen Iris sells *no* advertising or underwriting and airs *no* ads or underwriting on the Station, the response in the renewal as originally filed to the question on whether the licensee certifies that its advertising sales agreements do not discriminate on the basis of race or ethnicity and that all advertising sales agreements held by the licensee contain non-discrimination clauses was NA. This is because, as noted above, Glen Iris does not sell advertising or underwriting on the Station.

At the direction of the FCC, the response in the renewal appliiton this question has been changed to "No". The reason why the answer is no is because the station air *no ads* on the station and, as a result, Glen Iris *has no advertising sales agreements* in which a non-discrimination clause would be included.

Glen Iris does note, however, that it regularly airs a promo on the Station which *does* state that "Glen Iris Baptist School does not discriminate on the basis of race, color or national ethnic origin."
