

**Radio Stations KPGE-AM & KXAZ-FM  
Online Public Inspection File Statement**

In preparing for each station's license renewal filing, counsel for Lake Powell Communications, Inc. ("Lake Powell") reviewed the KPGE-AM and KXAZ-FM Online Public Inspection Files, discussed his findings with the President of Lake Powell and advised that the quarterly issues-programs lists were not as complete as they should be.

Throughout the years much of the issues-oriented programming broadcast on both radio stations was not specifically or completely documented on the quarterly lists. Upon the advice of counsel, Lake Powell has been revising some quarterly lists to include additional information and Lake Powell will continue to make improvements to more accurately reflect its efforts to comply with the FCC's issues-oriented programming obligations.
