

EXTENSION REQUEST

Applicant respectfully requests a 180-day extension of the construction permit deadline pursuant to the procedures set forth in the Public Notice dated March 4, 2021.

Despite Applicant's diligent efforts, buildout of the authorized facility has been delayed due to multiple causes, from financial hardship and public health measures directly related to the global and national impacts of COVID-19, to increasing prices for labor and materials like transmitter line also have impacted our ability to meet the deadline.

Despite the financial challenges, we expect to have the equipment ready by July 13, 2021 and have installation completed by November 13, 2021. To cover any contingency, we request a 180 day extension of the expiration of the construction permit.

Applicant submits that a grant of this extension request would serve the public interest by providing additional time for the Buyer to complete construction of the authorized facility and bring important television programming service to the viewing public.
