

Assignee Multiple Ownership Compliance

KESO is assigned by BIA to the McAllen-Brownsville-Harlingen, TX rated market, as shown on Exhibit A. The proposed assignee, Rio Grande Bible Institute, Inc., (RGBI) is the FCC licensee of the following noncommercial AM and FM radio stations:

KRIO(AM), McAllen, Texas (Fac. Id. 56477)

KOIR-FM, Edinburg, Texas (Fac. Id. 56478)

KRIO-FM, Roma, Texas (Fac. Id. 24816)

The first two stations above are also assigned to the McAllen-Brownsville-Harlingen, TX rated market. *See* Exhibit A. The proposed assignee is filing a contingent application to convert KESO to noncommercial status, and if granted, the proposed assignee would own three noncommercial radio stations in the market post-transaction, which is fully compliant with the FCC's multiple ownership rules. Even if not converted to noncommercial status, the proposed assignee would only own one commercial radio station in the market post-transaction, which is also fully compliant with §73.3555(a)(1)(ii) of the FCC's multiple ownership rule, which allows ownership of up to 7 stations, not more than 4 in one service, in a market like McAllen-Brownsville-Harlingen, TX market where 32 commercial and noncommercial stations are assigned by BIA. *See* Exhibit A.

The proposed assignee's third station above, KRIO-FM, Roma, Texas, is not assigned to a rated market, and therefore would only implicate the FCC's multiple ownership restrictions if its' principal community contour overlapped either KESO's or the other currently owned stations' contours. As shown in Exhibit B, there is no such overlap, and therefore the continued ownership of KRIO-FM by the proposed assignee post-transaction does not implicate the FCC's multiple ownership rules.

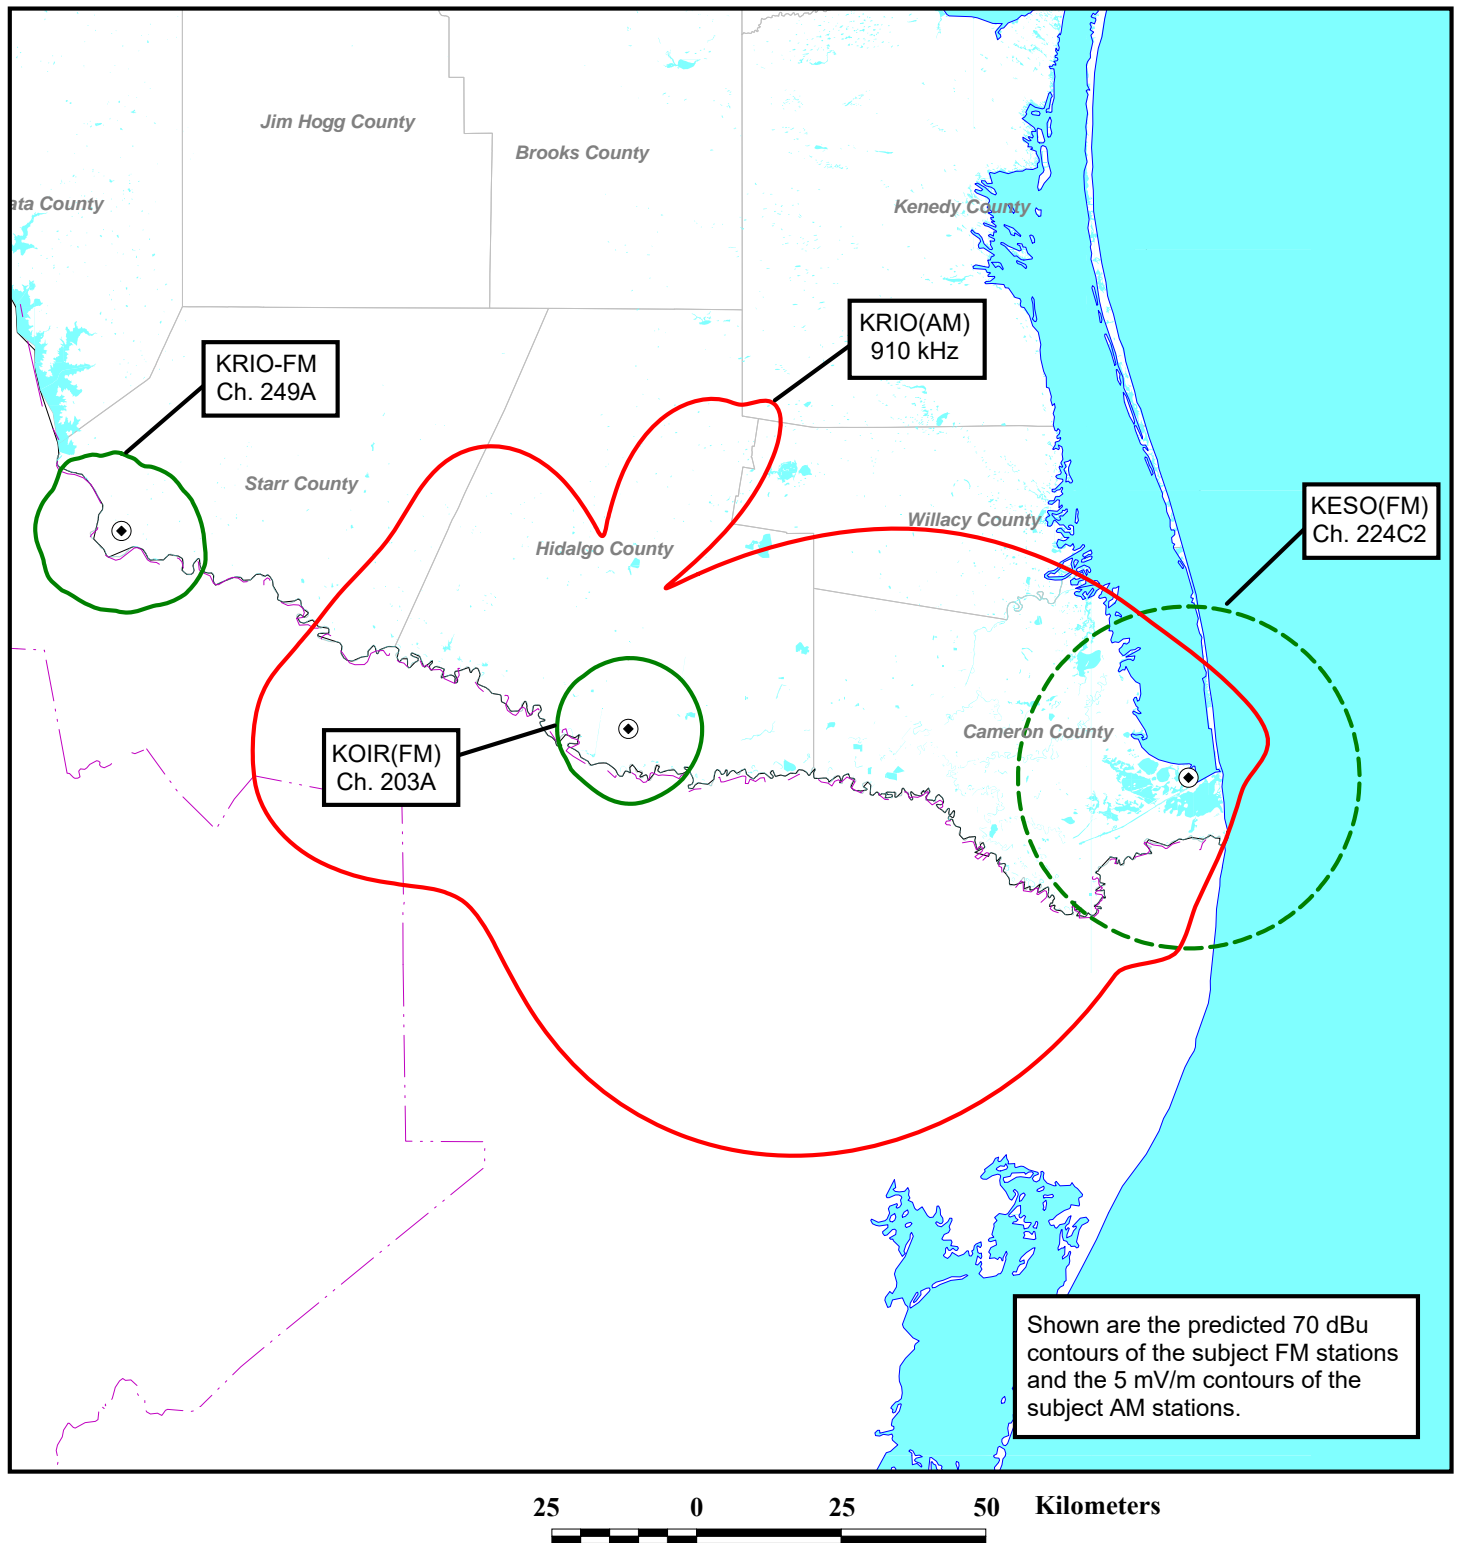

For the reasons above, the proposed transaction is fully compliant with the FCC's multiple ownership rules.

EXHIBIT A
