

MULTIPLE OWNERSHIP SHOWING

Independence Rock Media, LLC (IRM) has reached agreements with the widow of the late broadcaster Tom F. Huth to acquire a total of nine primary broadcast stations that operate in four separate markets:

Red Bluff-Gerber, California (Tehama County):

1. KBLF(AM), Red Bluff, California, FIN 48853
2. KRAC(AM), Red Bluff, California, FIN 54978
3. KTOR(FM), Gerber, California, FIN 82891

Susanville, California (Lassen County):

1. KAJK(FM), Susanville, California, FIN 162465
2. KGXX(FM), Susanville, California, FIN 183357
3. KLZN(AM), Susanville, California, FIN 160277

Hamilton City-Concow, California (Glenn and Butte Counties):

1. KHEX(FM), Concow, California, FIN 31618
2. KEGE(FM), Hamilton City, California, FIN 164155

Willows, California (Glenn County):

1. KIQS(AM), Willows, California, FIN 34941

There is attached as Figure A a map of northern California prepared by engineering consultant Kevin Youngers of Greeley, Colorado which shows the city-

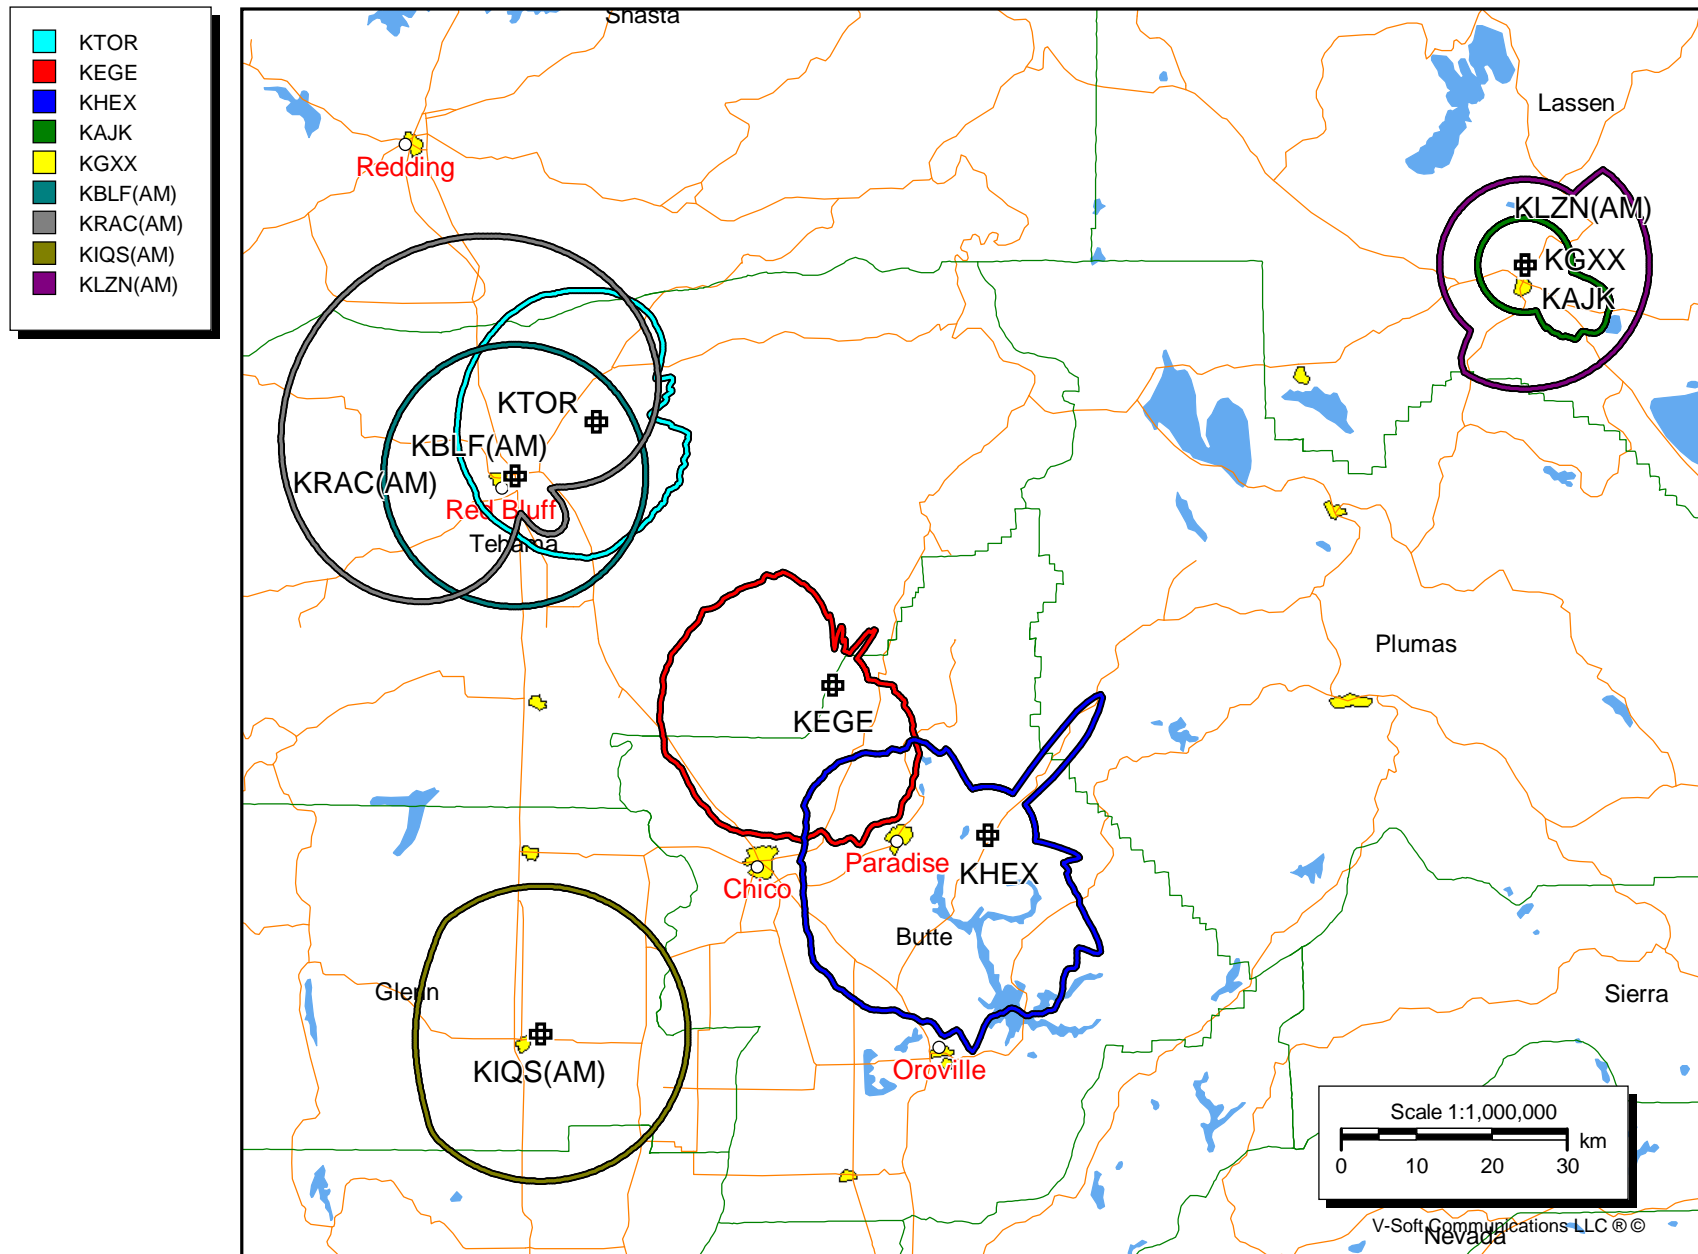

grade contours of these nine stations, that shows the four separate market areas. Tehama, Lassen and Glenn Counties are outside Nielsen rated “radio metro markets”. Butte County is in the Nielsen-defined Chico, California radio metro market.

We attach as Figure B a map which shows the contours of primary radio stations that overlap with the stations IRM seeks to acquire in the Red Bluff-Gerber market. There are at least five such primary stations licensed to third parties which have city-grade contour overlap with either KBLF, KRAC and/or KTOR :

1. KFOI(FM), 90.9 MHz, Red Bluff, CA, FIN 77121, Alta California Community Media, Inc.
2. KRBN(FM), 94.3 MHz, Manton, CA, FIN 170993, JAB Broadcasting, LLC
3. KKXS(FM), 96.1 MHz, Shingletown, CA, FIN 83787, Results Radio of Redding Licensee, LLC
4. KKRO(FM), 102.7 MHz, Red Bluff, CA, FIN 40829, Educational Media Foundation
5. KRDG(FM), 105.3 MHz, Shingletown, CA, FIN 41620, SMG-Redding, LLC

Therefore, IRM’s acquisition of KBLF, KRAC and KTOR complies with Section 73.3555(a)(iv), as IRM would own less than 50% of the radio stations in a market of 14 stations or less.
