

WOHZ-CD, Mansfield, OH (FID 41892)  
Request for Silent STA

Gray Television Licensee, LLC (Gray), licensee of WOHZ-CD requests special temporary authority for WOHZ-CD to remain silent while its relocated facility is constructed.

Gray acquired WOHZ-CD on December 8, 2020. The sale did not include access to the station's current tower site, forcing Gray to relocate the station. Gray took the station silent on December 8, 2020 while it located and applied for authority to move to a new transmitter site. Due to a miscommunication with its engineering team, Gray did not request authority for WOHZ-CD to remain silent. Gray requests special temporary authority *nunc pro tunc* for the silent status of WOHZ-CD.

WOHZ-CD was silent from December 8, 2020 until April 26, 2021. WOHZ-CD resumed operations on April 26, 2021 with the facilities specified in its construction permit for a minor modification (File No. 132239). Upon resuming operations, Gray filed a license to cover this facility (File No. 144021).

Gray then filed a second minor modification application seeking to move the station to the location specified in its current construction permit (File No. 145749), which was granted on May 18, 2021. The station is silent while Gray constructs this facility for WOHZ-CD. Gray is actively working to construct this facility and anticipates resuming operations with these authorized facilities by the end of May.

Gray regrets that due to a miscommunication it did not file the appropriate requests for authority to remain silent with the Commission and respectfully requests grant of this instant STA and authority *nunc pro tunc* for its previous silent period.
