

KSFR-FM (Facility ID 67340) White Rock, NM

Licensee: Santa Fe Community College

License Renewal Schedule 303-S

Explanation of Certification related to Online Public Inspection File

As of the date of this renewal filing, the KSFR-FM electronic public file is complete for all quarters since the prior license renewal in 2013. During the most recent license period, however, the following problem with the public file was identified:

Between 2013 and 2018, the KSFR-FM public file was maintained on paper, as was required by the Commission's rules. The KSFR-FM public file made the required transition to the Commission's OPIF pages on the internet on March 1, 2018. During review of the KSFR OPIF in preparation for license renewal in May 2021, however, it was noted that the Issues/Programs Lists (IPLs) for the First Quarter of 2018 was filed four days late, on April 13, 2018. Fourth Quarter of 2018 IPL was also filed late, on January 29, 2019, but that lateness was excused due to the federal government shutdown in early January 2019. Internal station records confirm that both reports were created contemporaneously during the indicated quarter in a timely manner.

Also during the May, 2021 OPIF review, it was noted that the IPLs for the first two quarters of 2020 were missing from the electronic OPIF files, although these IPLs had both been created on a timely basis during the quarters in question. The two missing quarters have now been placed in their respective electronic quarterly files.

Santa Fe Community College and the management of KSFR-FM sincerely regret and acknowledge the public file errors described above and are taking concrete specific actions to avoid such issues going forward. Experienced FCC legal counsel has been asked to assist with FCC compliance obligations related to the KSFR-FM public file. Legal counsel will be meeting with station management, at least quarterly, to ensure timely and complete public file compliance.
