

## Station WCPO-TV FCC Violations during the Preceding License Term

Station WCPO-TV was admonished by the Commission in an Order released October 16, 2019 for failing to include in the station's online public inspection file certain information related to non-candidate political advertising.<sup>1</sup> The Order found that, with regard to the station's public file documentation of a single political advertisement, WCPO-TV's use of the acronym "DSCC-IE" was insufficient to identify the Democratic Senatorial Campaign Committee as the sponsoring entity.
