

### Online Public File Exhibit

In the course of preparing the instant renewal application, licensee reviewed its online public file and noticed some discrepancies. Two annual EEO reports were uploaded late, in both cases by only a handful of days. Two political orders were uploaded within a few days of being due and documentation of the exact times that political spots actually ran was not uploaded after the schedules were completed but has now been uploaded. Also, one quarterly issues/programs list was uploaded the day after it was due. Licensee will work to ensure that all documents are timely uploaded going forward.
