**Annual EEO Public File Report August 1st, 2019 to July 31st, 2020**

Full - Time Position		Date of Hire	Total # of Interviewees	Recruitment Source Utilized	Recruitment Source that referred
*On-Air Personality/Production	*this person was initially hired by this employment unit in 1999, prior to implementation of the FCC's current EEO rules. She worked full time for this employment unit for approximately one year and then for a period of about the next 19 years assumed a position and established herself as host of a well-received broadcast morning show as part of a shared services agreement between this station and another California broadcaster. She was terminated in December 2018 when the shared services agreement ended and soon thereafter transitioned to a volunteer position at this employment unit. After a few months, we added occasional compensated projects to her volunteer duties. When a full time radio host vacancy became available in September 2019, she was hired due to her longevity with the employment unit and related personal familiarity with station practices, the licensee, the job requirements, established good work record and her history as a known radio personality in the market .	9/1/2019	1
