RE: WYFH, Summerville, S.C., 'BBN Summerville Tower' Antenna Installation
Azimuth Verification

Dear Mr. Becker,

On Thursday, 17 June 2021, Cornerstone Surveying & Engineering made a field survey observation with a Trimble S6 survey instrument on established project survey control of the new *WYFH* antenna referenced above during the antenna installation process. By this letter, I am verifying the azimuth orientation of the referenced antenna to be **155 degrees** relative to **True** (Astronomic) **North**, **+/- 1.0 degrees**, as per your specifications.

Sincerely,

CORNERSTONE SURVEYING & ENGINEERING, INC.
