An assignment was filed on April 8, 2021, File # 0000143230, from Digital Television, LLC to FideliTV LLC for the above listed stations. FideliTV looks forward to getting the stations on the air as expeditiously as possible.

FideliTV has contracted with an engineering group to build the stations per the granted construction permits. Transmitters have been ordered, as well as antennas. Upon receipt of this equipment, FideliTV has crews staged to install the equipment and begin broadcasting to the public.

FideliTV expects to be able to construct these stations within the next 60 to 120 days and respectfully requests a grant to extend the construction permit by the usual 6 months, per FCC practice.

Sincerely,
