

KNUW Online Public File

The KNUW online public file contains all of the documents required to be posted to the online public file. The posting of many of these documents, while accomplished some time ago, was somewhat late, however.

Specifically, the issues/programs lists for the fourth quarter of 2013 through the third quarter of 2018, with the exception of the report for the second quarter of 2014, were posted in the online public file on December 21, 2018. The issues/programs list for the second quarter of 2014 was inadvertently omitted from the initial postings in the online public file. This omission was discovered in connection with the preparation of this license renewal application, and the report was added to the online public file on June 25, 2021.

The quarterly reports for the fourth quarter of 2018 and the first quarter of 2019 were posted in a timely manner.

The issues/programs list for the second quarter of 2019 was posted on July 11, 2019, one day later. The online public file posting of the issues/programs list for the third quarter of 2019 was overlooked until the fourth quarter 2019 report was prepared, and both were posted on January 17, 2020.

Due to complications of access to the station's studio, records, and computers, the issues/programs lists for all of 2020 and the first quarter of 2021 were delayed but have now been posted as of June 15, 2021.

Additionally, in connection with the preparation of this license renewal application, the licensee realized that political file documentation related to two federal Congressional candidates and one local candidate in 2020, and one issue advertiser in 2021 had not been uploaded to the online public file but had been kept in the paper political file only. These documents were uploaded to the online public file on June 29, 2021.
