

**EXHIBIT FOR FILING MINOR MODIFICATION OF  
CONSTRUCTION PERMIT  
K20NF-D, FI 181463  
IGLESIA PENTECOSTAL VISPERIA DEL FIN  
SEATTLE, WA  
FCC FILE NUMBER 0000052239**

The within application is for filing a move to an acceptable tower for the above-referenced LPTV facility. A lengthy and difficult tower search resulted in this filing. The antenna, a single KAT panel is to be mounted at 150 M AGL on registered tower ASR #1032128, located within 30 miles of the underlying permitted site. A TV Study interference analysis was run; it showed no unacceptable interference to any facility, permit or application as of the time of filing. For the purposes of this application, applicant is willing to accept up to 10% incoming interference from other applications or facilities with the intent of resolving these issues in due course.

NIER at this site and elevation is below the OET65 limit for this service. As this is a shared, secured site with signage, all licensees agree to power reduction at necessary times to protect professional personnel working at the site.
