Exhibit 1

Suspension of Operations

Nexstar Media Inc., licensee of low power television station WPNY-LP, Utica, New York, hereby notifies the FCC that the station has been off the air since July 7, 2021. During the week prior major storms damaged certain equipment on the antenna and transmitter, resulting in the station being unable to operate at its authorized power on a consistent basis. In order to assess, the Nexstar took the station off the air as it has to send key operating components directly to the manufacturer for evaluation/repair and there are no suitable replacement parts to allow operation in the interim. Nexstar hopes to have these issues resolved soon, but in the event repairs cannot be completed within thirty days it will file the appropriate request for special temporary authority to remain silent.
