

### KAMB Online Public File

All required documents are now located in the online public file. Throughout the current license term, all such documents were prepared in a timely manner and timely placed in the station's paper public file. Until earlier this year, however, the station's licensee did not fully understand that the official public file had been shifted to the online public file and therefore did not upload the public file documents to the online public file until February 22, 2021. Since that time, the first quarter and second quarter issues/programs lists, as well as the 2020-2021 EEO public file report, have been timely posted to the online public file.
