

## W295DB LICENSE APPLICATION

This application is being filed to license the operation of the new W295DB translator, providing WJYM AM programming on the FM band. The translator was constructed as authorized in the Construction Permit, file #0000136506, approved on March 8, 2021. In compliance with the construction permit Special Operating Condition #2, the impact of the translator antenna installation on the WJYM directional compliance, a M.O.M. study was conducted. The study report is currently on file with the Commission. No file number has yet been assigned to that filing. The construction of the new W295DB translator is in compliance with the requirements of the new construction permit and F.C.C. regulations.
