BY: EMAIL

May 22, 2018

Mr. Dan Wilson, Sr. Manager
Spectrum Engineering
SpectrumClearing@T-Mobile.com

Dear Mr. Wilson:

We are writing to you on behalf of Developers & Managers Group, LLC ("Developers & Managers Group"). Developers & Managers is the owner of the following FCC low power digital television stations: K38NR-D, K45IY, and K45IM-D.

Developers & Managers Group is an African American company located in Baton Rouge, LA. Over the past few years Developers & Managers Group has invested over \$150,000 to purchased and convert the stations from analog to digital. The money was borrowed from the Louisiana Community Development Capital Fund, Inc. ("Capfund") an African American financial institution licensed by the United States Department of the Treasury CDFI Fund.

Developers & Mangers Group has received two letters of notification from T-Mobile dated April 27, 2018 and May 10, 2018 informing the Company that T-Mobile is preparing to commence operations on its 600MHz spectrum in the Partial Economic Area ("PEA") #189 by 9/7/2018 and K38NR-D, K45IY, K45IM-D are likely to cause harmful interference to T-Mobile's operations.

The letter states that FCC regulations require Developers & Managers Group to cease operations or eliminate the potential for harmful interference to T-Mobile's wireless facilities in the PEA# 189 market. The letter further states that the FCC will work with the Company.

Enclosed with your letter of notification was a letter dated July 17, 2017 from Steve B. Sharkey, Vice President, Government Affairs, Technology and Engineering Policy, T-Mobile USA, Inc. (202) 654-5900 addressed to Ms.

Mr. Dan Wilson, Sr. Manager
Spectrum Engineering
SpectrumClearing@T-Mobile.com
May 22, 2018
Page 2

Marlene H. Dortch, Secretary, Federal Communications Commission, 445 12th Street, S.W., Room TW-A325, Washington, D.C. 20554. In the letter, Mr. Sharkey informs the FCC of a voluntary commitment that T-Mobile USA, Inc. ("T-Mobile") is making to compensate certain low power television stations that operate on a secondary basis and are unable to obtain a permanent channel in time to accommodate T-Mobile's rapid deployment of broadband service in the 600 MHz band.

We have called Mr. Sharkey several times and left messages for him to return our telephone calls with no response to date. We have talked to Mr. Hossein at the FCC about the options available. He has suggested that we retained a consulting engineer to perform a search.

Developers & Managers Group's financial resources have been depleted during the process of converting the stations from analog to digital. Unless your company provides assistance, we will have no other alternative than to cease operations.

Therefore, please accept this letter as a written request to T-Mobile from Developers & Managers Group to coordinate our operations by providing financial and/or technical assistance in identifying other frequencies in the area and the cost of moving to the new locations.

Your cooperation and assistance is appreciated.

Cordially,

Dr. Ernest L. Johnson, J.D., D.D.

Subject: RE: K38RN-D Alexandria, La and K45IM-D Monroe, La T Mobile

From: Hossein Hashemzadeh <Hossein.Hashemzadeh@fcc.gov>

Date: Thu, May 24, 2018 6:58 am

To: "ernestjohnson@lacapfund.com" <ernestjohnson@lacapfund.com>,
"hossein.hashemzabeh@fcc.gov" <hossein.hashemzabeh@fcc.gov>

Cc: Darrell Glasper <dglasper@bellsouth.net>, Barry McGrill <wb4ezg@yahoo.com>

Good Morning:

The correct call sign for Alexandria is K38NR-D.

The only channels that we can recommend for these two facilities are channel 29 for K45RM-D and channel 4 for K38NR-D. However, there might be other channels available if using lower power or different antenna and how far up in the tower the antenna is installed (RCAGL). I would recommend for you to consult with an engineer and have them look to see if other channels are possibilities. When you figured out what channels you will be using, then you have to file displacement applications for these using our e-filing system and after filing the displacement applications, then you have to file legal special temporary authority requests to start broadcasting on the new channels. Let me know if any question.

Thx

Subject: RE: Fwd: FCC to Hold Webinar on Reimbursement for Repacking Expenses of LPTV
From: ernestjohnson@lacapfund.com
Date: Tue, Aug 27, 2019 10:01 am
To: "Kerney Thomas" <kerneythomasiii@gmail.com>
Cc: "Ernest Johnson" <ernestjohnson@lacapfund.com>
Attach: K38RN-D Equipment Prices.pdf

Thanks very much for the update. I was not aware of the October 15th deadline. Very helpful info. Attached is a copy of the equipment list and prices for K38NR-D. I know that additional equipment has to be purchased i.e. antenna, encoder, ect. No problem.

Also, I think we might need to price equipment for K4-D in Alexandria considering the short time between now and the October deadline. What do you think?

Subject: Channel Change Alexandria LA

From: "Glen in Houston" <gmdsales@gmdusa.com>

Date: Fri, Nov 08, 2019 8:06 am

To: <ernestjohnson@lacapfund.com>

Cc: "'Kerney Thomas'" <kerneythomasiii@gmail.com>, <kerneythomas@mac.com>

We would like to start the process today, first we need to have the current channel 4 CP cancelled. (The FCC does not allow a minor change to the channel 4 CP that would change its channel.) I believe this can be done with an informal e-mail to Hossein at the FCC. Here is the FCC Attorney I suggest we use for this part...

Shelley Sadowsky, Esq.

Shelley Sadowsky, LLC

Attorney at Law

5938 Dorchester Way

Rockville, MD 20852

Tel: 202-997-9392

shelley@sadowskycommmlaw.com

Please make contact and arrangements with her so we can proceed.

I believe then that we wait until at least the next business day to file for the new channel 36 displacement.

I will need to know what omni transmit antenna we will want to use for channel 36. Perhaps the Andrew ALP16M4-HSOC omnioid (slight directional) that is licensed for the channel 38 facility can be used but I defer to the antenna manufacturer on this question.

K04SA_Form 399 Reimbursement_Final draft_11.13.19.pdf

Hi Kerney,

Your 399 Reimbursement forms and 399 Eligibility forms are ready for you to "Certify and Submit" in LMS for both K45IM and K04SA. The deadline to submit is now November 14th, however we do not recommend you wait until the last day to click submit.

I've attached the PDF copies of both forms for reference.

The forms were completed to the best of our ability based on our previous conversations, the Intake information provided to us, and sources believed to be reliable and accurate. However, many of the fields were filled in using generic answers and might not necessarily reflect each station's exact situation. **Please review carefully and remember you are certifying the information is correct so feel free to make corrections as you see fit.**

Your next steps are to log in to LMS, open each form, and click "Certify and Submit" before the deadline tomorrow.

As soon as the FCC approves your forms or reaches out for questions, we will begin the "Form 399 assistance – follow-up work" services portion of our quotes to begin the reimbursement process.

Thank you,

Nick Solano

Subject: LPTV/translator Repack Filing Completed!**From: ANYWAVE - We've got your broadcast transmission needs covered!**
<david.neff@anywavecom.com>**Date: Mon, Dec 02, 2019 2:30 pm****To: ernestjohnson@lacapfund.com**

*So – you got your 399s filed
for the LPTV /translator repack
– Now what?*

- The FCC will review the submissions and make allocations soon.
-
- You are not required to use the brand and model of transmitter that you filed with. **DON'T SETTLE FOR LESS!** Anywave is the leader in LPTV and translators for a reason. We have the best performing, highest efficiency, most feature-rich transmitters on the market. We can help you to get the best equipment for your station.
- If funding of the purchase before reimbursement is an issue, talk to us! We have creative financing and terms arrangements available.
- We offer a full range of services for your installation. We can also answer any questions that you may have at this point. Call today!

Contact us today!
