

## Reno Media Group KLCA License Renewal Application Exhibit 1

During this past license term, Reno Media Group, L.P. (“Reno Media Group”), licensee of radio broadcast station KLCA, due to inadvertent error, did not timely upload to its FCC online public inspection file the following documents:

- (1) A quarterly issues and programs list for 2018 Q4; and
- (2) Certain political advertising orders generated in 2019 and 2020.

Reno Media Group notes that it uploaded the single late quarterly issues and programs list promptly upon discovery of the error and within three weeks of the deadline.

With respect to the late-filed political advertising orders, Reno Media Group has updated its practices and policies in a good faith effort to ensure that future political advertising documents are timely placed in the online public inspection file.
