

KZZO(FM)

FCC Violations and Online Public File

Although the station timely uploaded required documentation to the FCC-hosted online public file since the station was acquired on September 21, 2018 in most cases, copies of the Section 73.3613 documents were uploaded three business days late on October 25, 2018 and the 2Q 2021 quarterly issues/programs list was uploaded on July 23, 2021. In addition, on May 6, 2021, the licensee entered into a consent decree with the FCC's Media Bureau that fully resolved matters involving untimely political file uploads. *See Online Political Files of Bonneville International Corporation*, Order, DA 21-572 (MB 2021).
