

**Silent Status**

On July 31, 2021, KKGX and K256CU went silent due to unforeseen technical problems with the stations that require correction in order to continue operations, as the software and equipment included with the assets sold to IVOX RADIO is outdated and no support is available to maintain the status quo. IVOX RADIO will make the necessary filings with the FCC, including a request for special temporary authority for the stations to remain silent in a timely manner.
