

### **Certification and detail of Resumption of Operations after Assignment of License**

- New License holder, Art In Motion, Inc., (AIM) hereby certifies that station KCLA-LP FM is currently on the air and has been broadcasting at normal parameters since June 30th, 2021. AIM assumed control of the LPFM facility following the grant of Form 314 Assignment application, BALEDT-20201113ABJ (granted on April 2, 2021).

There was some initial confusion by new station staff as to requirements and procedures for filing a Resumption of Operations. As a new licensee in 2021 entering after implementation of the LMS system, it was thought that a Federal Registration Number (FRN #) alone would be required for any new broadcast applications. However, the new LMS appears to have no menu for filing a Resumption of Operations, or accessing previous letters and authorization.

As it turned out, Silent STAs and Resumptions can be only be accessed via the legacy CDBS system.

Art In Motion, Inc. has now reclaimed the old CDBS account for KCLA, which is now updated with current info along with the filing for Resumption of Operations.
