

W284DG installation  
Hempstead, NY

W284DG was built utilizing a Shively SLV-3 HW DA antenna as per the CP.

The antenna was mounted at 250 feet HAG level, center of radiation.

The antenna was assembled keeping strict adherence to the manufacturers assembly instructions and was pointed at the 115 degree azimuth per pattern instructions from Shively Labs.

A handwritten signature in black ink, appearing to read "Fred A. Francis Jr." The signature is written in a cursive, flowing style with a large, prominent loop at the end.
