DIGITAL LPTV FACILITY MINOR CHANGE APPLICATION K49MW

FCC FACILITY ID: 186664

BUTTONWILLOW, CA

CHANNEL DISPLACEMENT APPLICATION FROM CHANNEL 49 TO CHANNEL 29

ENGINEERING NARRATIVE

Displacement Status:

K49MW, holds a construction permit for operation on Digital Television Channel 49, an “out-of-core” channel. As such, no further demonstration of displacement status is required.

Minor Change Application:

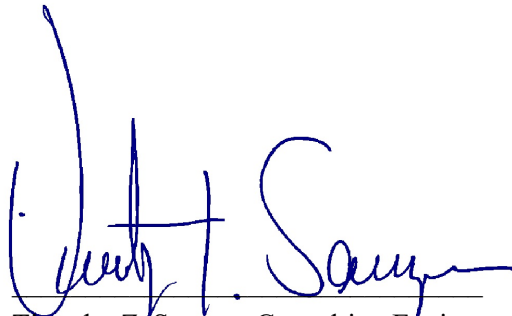

K49MW, seeks to modify its existing construction permit to operate on Digital Television Channel 29 at its currently authorized site. No change in antenna type or antenna mounting elevations are requested. K49MW effective radiated power remains as authorized at 1-kilowatt using the previously authorized directional antenna pattern. A full-service filter mask is to be employed. The facility requested is not contingent upon a grant or channel move of any other known facility at the time of filing.

A TV Interference Check Study of the proposal using the FCC TVStudy program (Version 2.2.5), shows that no prohibitive interference will occur from the proposal. A copy of the summary report has been included in this application. The applicant accepts any interference that is predicted to exist to the proposed facility by any authorized or previously proposed primary or secondary TV station.

Environmental Evaluation Statement:

The environmental evaluation statement concerning this proposal has been included in this application and can be found as a separate file upload within the application. A grant of this proposal would NOT be an action which would have a significant environmental effect as demonstrated in the environmental evaluation statement.
