

TECHNICAL SUMMARY

DIGITAL CLASS A STATION K34NC-D
FISH CREEK, ETC., IDAHO
CHANNEL 34 15 KW(H), 4.5 KW(V) (MAX-DA) 1820.8 M AMSL

1. The instant application is to increase the maximum effective radiated power (ERP) for the K34NC-D facility from 5 kW to 15 kW. No other changes are proposed.
2. As demonstrated in the *TVStudy* interference analysis exhibit, the proposal is fully compliant with the FCC's interference protection requirements with respect to all protected facilities.
