

KBFW-LP Request for Silent STA status
Gerald Benavides, licensee

This LPTV station is silent now due to the cancellation of its license and a digital flash cut Construction Permit. The licensee, per the attached pleading, has requested reinstatement of the license and CP and has taken the station silent as of August 17, 2021 at the instruction of the Video Division, Media Bureau.

The station will be returned to the air, should the license and CP be reinstated, as soon as the ATSC 3.0 digital facility is completed and an application for license to cover filed, which will occur, if at all, not later than December 31, 2021.
