

BCBE License Subsidiary, LLC  
WEEV-LD, Evansville, IN  
Facility ID No. 188022  
FCC Form 2100/Schedule 303-S

Allen Media Broadcasting, LLC acquired control of BCBE License Subsidiary, LLC ("BCBE"), the licensee of full-power television station WEVV-TV, Evansville, Indiana, and low power television station WEEV-LD, Evansville, Indiana (which rebroadcasts WEVV-TV's programming), on July 3, 2019. See FCC File Nos. BTCCDT-20190507ABR/BTC-20190507ABS. The two stations operate from the same tower and WEEV-LD's signal contour is wholly encompassed by WEVV-TV's signal contour. Pursuant to the post-Incentive Auction channel reassignment process, station WEVV-TV was reassigned from Channel 45 to Channel 28 and placed in Transition Phase 6. On October 11, 2019, BCBE ceased WEEV-LD's operations and removed the low power station's antenna so that it could install a temporary Channel 45 antenna for WEVV-TV to provide interim service while competing installation of its new Channel 28 antenna. On October 18, 2019, WEVV-TV ceased its interim Channel 45 operations and commenced its Channel 28 operations. Due to inadvertent oversight, BCBE did not request special temporary authority for WEEV-LD to remain silent. Moreover, due to budgetary constraints and WEVV-TV's satisfactory Channel 28 signal coverage, BCBE did not rush to return WEEV-LD to the air, a situation later exacerbated by the COVID-19 pandemic. BCBE resumed WEEV-LD's operations pursuant to the technical parameters specified in its license (FCC File No. 0000066968) on September 25, 2020.
