

Reason for Amendment

Calvary Chapel of Chico, Licensee of Low Power FM Station KQIP-LP, Chico, CA (Facility ID No. 124250) ("Chico"), files this amendment at the informal request from Commission staff to correct the various height information relating to the church steeple and antenna. The original application was erroneously submitted with this data reflected in AMSL, rather than in AGL. Accordingly, the application and accompanying engineering statement have been amended to reflect the corrected heights in AGL.

Other than the items listed herein, no other changes have been made to the previously-submitted application.
