

AUCTION AUTHORIZATION EXHIBIT

As noted separately in this application, the original construction permit for WACP(TV) was acquired by Western Pacific Broadcast, LLC (Assignor's predecessor-in-interest) in FCC Auction 90, in which bidding credits were used by the winning bidder. The auction concluded in 2011 and the WACP(TV) construction permit was issued on May 4, 2011 (File No. BNPCDT-20110330AAX). Accordingly, more than five years have passed since the issuance of the construction permit for the station being assigned.
