

**AMENDMENT TO
LICENSE RENEWAL APPLICATION**

The instant amendment is being filed to update the Station's renewal application to reflect that, while the Station aired the post-filing local public notice announcements in accordance with Section 73.3580, it inadvertently failed to upload a statement certifying compliance with the local public notice requirements by August 23, 2020 (i.e., 7 days after the last post-filing local public announcement was made on August 16). The Station uploaded the required certification promptly after its discovery of this omission. The Station notes that, in addition to complying with the substantive requirements governing broadcast post-filing renewal announcements, it also aired pre-filing renewal announcements on April 1, April 16, May 1 and May 16, notwithstanding that the Commission waived the pre-filing renewal requirements for television broadcast stations.¹
