

**COMPREHENSIVE EXHIBIT**  
**LICENSE RENEWAL APPLICATION OF WNPB-TV (“STATION”)**

Certifications. The Station is a non-commercial educational television station (“NCE”). Accordingly, WVEBA has responded “N/A” to questions regarding compliance with the FCC’s rules governing multiple ownership, non-discriminatory advertising sales agreements, children’s television programming commercial limitations and programming reports, notification to publishers of program guides, and publicizing children’s television programming reports. WVEBA also has responded “N/A” to the certification regarding posting the EEO public file report to the Station’s website because the Station does not employ five or more full-time employees.<sup>1</sup>

Online Public Inspection File. WVEBA maintains an online public inspection file (“OPIF”) for the Station pursuant to Section 73.3527 of the FCC’s rules. During the course of preparing the instant license renewal application, WVEBA determined that 6 issues and program reports and 3 annual EEO reports for the Station were filed one day to four months later than specified in the applicable FCC rule. WVEBA also determined as it was preparing this license renewal application that it had inadvertently failed to upload 3 issues and programs reports for the Station and has corrected this unintentional omission by uploading these reports to the OPIF. The foregoing late-filings and omissions primarily resulted from changes in Station personnel responsible for public inspection file compliance.<sup>2</sup> WVEBA acknowledges the importance of maintaining a complete and organized OPIF and, to this end, has instituted procedures designed to ensure that Station employees tasked with OPIF compliance understand the FCC’s OPIF requirements (e.g., WVEBA has initiated an OPIF training program that Station employees tasked with maintaining the OPIF will participate in at the time of hire and on a periodic basis thereafter).

Other Broadcast Stations. WVEBA is the licensee of W23DR-D, W08EE-D, W41DK-D, and W30CD-D, all of which rebroadcast the signal of WNPB-TV, which also is licensed to WVEBA. Thus, WVEBA has responded “N/A” to the question regarding rebroadcast consent. In addition, WVEBA has responded “No” to the question regarding adherence to minimum operating schedule because for W30CD-D and W08EE-D because each of these stations went silent on May 26, 2016, and remained silent pursuant to special temporary authority until they resumed operations on July 29, 2016.<sup>3</sup>

---

<sup>1</sup> WVEBA operates its television and radio stations as state public broadcast networks with central headquarters in Charleston, West Virginia. Where appropriate, employees in the regional television and radio stations are involved in recruitment/employment activities for their individual stations, as well as general recruitment efforts for the agency as a whole. Other than WSWP-TV (which is the location of WVEBA’s television network operations) and WVPB-FM (which is the location of WVEBA’s radio television network operations), there presently are fewer than five full-time employees at each individual station licensed to WVEBA.

<sup>2</sup> At the staff’s request, WVEBA would be glad to provide more details regarding the OPIF filings described in the text.

<sup>3</sup> See LMS File Nos. 0000011025 (W08EE-D request for silent authority); 0000011023 (W30CO-D request for silent authority); 0000013501 (W08EE-D notice of resumption of operations); and 0000013502 (W30CO-D notice of resumption of operations).
