John,

We have you currently on our schedule for the crew to start on 8/30. I would like to add that I'm doing my best to give you the most accurate schedule but please keep in mind that scheduling for us is always based on contingencies due to the weather and other circumstances that are out of our control. A week of bad weather can really affect multiple projects and sometimes the project comes together so smoothly that we are ready a couple days before.

We understand that our customers have different needs and we want to make sure we communicate how we typically operate. I hope this helps and works for you but if not please call me and I'll find a different solution that will accommodate your needs.

Best,

Brandon Young | Director of Operations

506 Industrial Road | Grove, OK 74344
