

Public File Certification

The station's online public inspection file is now complete, with all items required to be placed in the file by 47 C.F.R. 73.3527, to the licensee's knowledge. However, over the course of the preceding license term, the station uploaded certain required files (e.g., issues/programs lists from the first quarters of 2021 and 2019, the second quarters of 2019 and 2020, and the third quarters of 2019 and 2020) in an untimely manner. Since discovering these issues, the problem has been corrected and licensee has put into place procedures that will ensure that it timely files all subsequent documents to the station's online public file.

Licensee believes that as of the filing of the instant application its online public file is now complete. In making this certification, the licensee has reviewed its public inspection file and has inquired of current employees who are knowledgeable of the contents and maintenance of the licensee's public inspection file. As used in this certification, the phrase "to licensee's knowledge" means licensee's actual knowledge, during the period that the licensee has owned the station, without further investigation other than as described in this exhibit.
