

**Eastern Florida State College
WEFS(TV), Cocoa, FL (FID 6744)
Amendment**

Eastern Florida State College, the licensee of WEFS(TV), has amended its license renewal application to update the certifications to certain Children's Programming questions. As a noncommercial educational licensee, WEFS is not required to file Children's Programming Reports (or publicize those reports) or notify publishers of programming guides of its CORE programming schedule. Likewise, because of its licensee status, WEFS does not broadcast commercial matter. These certifications were answered N/A.

WEFS has complied with the CORE programming processing guidelines and, when required, included the E/I symbol on CORE programming. These certifications were changed to "yes."
