Certification Regarding Compliance with
Section 73.3526 of the FCC's Rules During the Preceding License Term

Upon review of its Public Inspection File to determine whether documentation required by Section 73.3526 of the FCC's Rules has been uploaded when required,[1] Applicant found that:

- While Applicant retains a list of all documents required to be disclosed under Section 73.3613 in its Public Inspection File, some documents were not added to the station's Section 73.3613 list (or, alternatively, uploaded) within 30 days after execution. An updated Section 73.3613 list was included in the station's most recent biennial ownership report and Applicant has uploaded a supplemental list to its Public Inspection File to account for relevant documents executed since then and not already listed in the ownership report.

- Applicant amended a News Share agreement with Nexstar station WHO on March 2, 2020 but did not upload that amendment to its Shared Service Agreements folder until May 7, 2020. That agreement has since expired and been replaced by a new News Share agreement executed in June 2020, a copy of which was timely uploaded.

- Some political file materials were not uploaded to the Public Inspection File within one business day of receiving the request for time.

Applicant will continue to remind station staff of Public Inspection file requirements and has provided, and will continue to provide, additional training to station staff and has worked to implement additional accountability procedures to enhance the station's compliance with Public Inspection File deadlines going forward.
